

SM15K - Series 15kW DC POWER SUPPLIES

Bi-Directional - Constant Power

Models	Voltage range	Current range
SM70-CP-450	0 – 70 V	-450 – 450 A
SM210-CP-150	0 – 210 V	-150 – 150 A
SM500-CP-90	0 – 500 V	-90 – 90 A
SM1000-CP-45	0 – 1000 V	-45 – 45 A
SM1500-CP-30	0 – 1500 V	-30 – 30 A

Features

- 15 kW bidirectional DC source & sink
- Constant-power output curve for extended operating range
- Regenerative design: sink power returned to the grid
- $\geq 95\%$ efficiency resulting in low heat dissipation
- Fast digital control with tunable load response
- Rated for continuous full-power operation
- Comprehensive overload and short-circuit protection

Functionalities

- Wide-range three-phase AC input
- Expandable in functions, interfaces and Master-Slave
- Built-in Ethernet interface with browser-based web interface
- Digital encoders for voltage/current setting and navigation
- Large front-panel display with menu-driven operation
- Temperature-controlled fans for low audible noise
- EMC performance beyond CE (low emission, high immunity)

Immunity	EN 61326-1 , equipment for use in industrial and domestic establishments				
Environmental conditions					
Storage temperature	- 40 to + 70 °C				
Operating temperature	- 20 to + 50 °C, Derate output to 75% at 60 °C				
Output automatically disabled at overtemperature					
Humidity	Maximum 95% RH, non-condensing, up to 40 °C Maximum 75% RH, non-condensing, up to 50 °C				
IP Rating	IP20				
Pollution degree	2				
MTBF	500 000 hrs				

⁶ Measured on resistive load with power supply in CV mode, different conditions may influence the specified speed.

⁷ Signal latency depends on the interface used & data traffic.

⁸ Local voltage sense.

⁹ Remote sensing and long wiring may influence the values.

¹⁰ Typical

¹¹ Unit should be configured to switch on the output at startup.

¹² See "Safety Instructions" in the product manual.

Typical Applications

- PV simulation and inverter testing
- Automotive test systems
- Automotive battery simulation
- Controlled battery (dis)charge test
- ATE in industrial production lines
- Precision current sources
- PWM-controlled DC motor testing
- Renewable-energy systems
- Plasma chambers
- Lasers
- Aerospace applications
- Defense / military applications

Standard Features

Bi-Directional Two-Quadrant Output

Full-power bidirectional two-quadrant operation keeps the DC output voltage constant whether power is sourced or sunk. Ideal for PWM-controlled DC motors and ATE systems.

Digital CV- and CC-Settings

Long-life digital encoders on the front panel provide precise CV/CC setting with coarse/fine adjustment and full front-panel lock (including CV/CC knobs).

High Voltage Isolation

High DC output isolation allows floating operation up to 1000 V for SM70-CP-450, SM210-CP-150, SM500-CP-90 and SM1000-CP-45, and up to 1500 V for SM1500-CP-30.

Sequencer and Function Blocks

Includes a sequencer for standalone automation or waveform generation. Function blocks support PV simulation, lead-less sensing and internal resistance function.

Ethernet Interface

Ethernet interface for programming and monitoring (SCPI), including an integrated web interface for remote control.

USB-Input

Feature not yet available. Front and rear USB inputs (Host / Type-A) are planned for exchanging settings and waveforms. Sequences can be uploaded via the web interface.

Interfaces

Plug-and-play extension modules

The interfacing and functional capabilities of the power supply can be extended at any time by inserting plug-and-play modules. Four slots are available at the rear of the power supply unit.

See the [Interfaces data sheet](#) for details.

Modules:

- **Isolated Analog programming** (INT-MOD-ANA)
High speed and accurate analog programming and monitoring
- **Anybus-carrier** (INT-MOD-ANY)
Carrier for AnyBus CompactCom 40 fieldbus inserts:
CANopen, EtherCAT, Ethernet/IP, Modbus-TCP, POWERLINK, PROFIBUS, PROFINET
- **Digital I/O** (INT-MOD-DIG)
Interacts with sequencer and Ethernet programming.
- **Isolated contacts** (INT-MOD-CON)
Programmable relays and floating interlock
- **Serial communication** (INT-MOD-SER)
RS232, RS485, RS422, USB
- **Master/Slave** (INT-MOD-M/S-2)
Series/parallel output functionality.
Assembly kits for parallel (M/S-PAR-SET) and series (M/S-SER-SET) operation are available for multi-unit systems. The number of units that can be connected in series or parallel depends on the power supply model.

Ordering Information

A complete overview of base-unit order codes, optional interface modules, Anybus options, and output assembly kits is provided in the SM15K Order Codes document on our website. For product details, downloads, and quotation requests, please visit the SM15K series page or contact Delta Elektronika or your local authorized distributor.
