

SM800 - Series 800 W DC POWER SUPPLIES

Models	Voltage range	Current range
SM 7.5-80	0 – 7.5 V	0 – 80 A
SM 18-50	0 – 18 V	0 – 50 A
SM 70-AR-24 Autoranging output	0 – 35 V 0 – 70 V	0 – 24 A 0 – 12 A
SM 400-AR-4 Autoranging output	0 – 200 V 0 – 400 V	0 – 4 A 0 – 2 A

Features

- Designed for long life at full power
- Excellent dynamic response to load changes
- Protected against all overload and short circuit conditions
- EMC surpasses CE requirements: low emission & high immunity
- Low audible noise: temperature-controlled fans
- Available options: analog & digital Interfaces, High Speed Programming, Digital Encoders, Sequencer, Power Sink etc.

Functionalities

- Master/Slave parallel and series operation with voltage and current sharing
- Stacking is allowed, space between units is not required
- High power system configuration from multiple units
- 19" rack mounting or laboratory use (feet included)
- Remote sensing
- Interlock

Mounting	stacking of units allowed, air flow is from rear to sides
AC Terminals	IEC320/C14, EN60320/C14
DC Terminals	M5 bolts
Programming connector	15 pole D-connector at rear panel (Female)
Interlock	contact at rear panel
Cooling audio noise level air flow	low noise blower, fan speed adapts to temperature of internal system ca. 45 dBA at full load, 25 °C ambient temperature, 1 m distance ca. 50 dBA at full load, 50 °C ambient temperature, 1 m distance From rear to sides
Enclosure degree of protection	IP20
Dimensions front panel: h x w behind front panel: h x w x d	88.1 x 222 mm (1/2 19", 2 U) 86 x 221 x 406 mm (feet removed)
Weight	5.4 kg

CV = Constant Voltage
 CC = Constant Current

Specifications measured at
 $t_{amb} = 25 \pm 5\text{ °C}$ and $V_{in} = 230\text{ VAC}$,
 50 Hz unless otherwise noted.

 subject to change without notice.

Typical Applications

- Accurate current sources
- Automotive battery simulations
- Driving PWM-Controlled DC motors
- Electronic circuit design
- Controlled battery (dis)charging
- Medical research equipment
- Component device testing
- Lasers
- Aerospace and military equipment
- ATE in industrial production lines

Available Options

Increased Output Power

The conservatively rated unit allows to deliver extra output with the same reliability. At some derating, either the maximum output voltage or the maximum output current can be increased by about 10%.

Option Code:

- P069

High Speed Programming

A 10 to 20 times higher programming speed (down to 0.2ms rise time at full load) and lower output capacitance¹⁾. Excellent for laser applications, test systems or as current source with low parallel capacitance as used in plasma chambers.

Option Codes:

- SM 7.5-80 – P250
- SM 18-50 – P251
- SM 70-AR-24 – P252
- SM400-AR-4 – P253

Two-Quadrant Output Power Sink

Two quadrant operation maintains the DC output voltage constant regardless the output power is positive or negative¹⁾. Ideal for PWM-speed controlled DC-Motors and ATE systems.

Option Codes:

- SM 7.5-80 – P245
- SM 18-50 – P246
- SM 70-AR-24 – P247
- SM400-AR-4 – P248

Sequencer

Arbitrary Waveform generator or standalone automation. The sequencer is integrated in the Ethernet controller.

Option Code:

- P256

Digital CV- and CC-Settings

Reliable, long-life digital encoders can be implemented at the front panel. Includes total front panel lock (also for CV- / CC-knobs) and a coarse or fine pitch adjustment depending on the turning speed.

Option Code:

- P236

Secured Voltage and Current Settings

For maximum security, the CV/CC settings can be adjusted with a screwdriver only and are protected with a plastic cap from accidental adjusting.

Option Code:

- P001

Software Control and Interfaces

Interfaces to be installed by factory ²⁾.

Option Codes:

- Ethernet controller – P256 (including sequencer)
- ISO AMP Card - isolated analog – P249
- RS232 controller – P254

Front Power Output

The 19" mounting adapters make it possible to position one or two units side by side in a 19" rack.

Option Codes:

- SM 7.5-80 – n.a.
- SM 18-50 – P257
- SM 70-AR-24 – P258
- SM400-AR-4 – P259

19" Rack Mounting adapter

Bind posts at the front panel instead of at the rear panel.

Order Codes:

- RA19 - 1SM800 (for 1 unit)
- RA19 - 2SM800 (for 2 units)

Notes: 1. Download datasheets about High Speed Programming, Power Sink and Battery Charging from www.DeltaPowerSupplies.com.
2. There is only room for one of the interfaces in a unit.

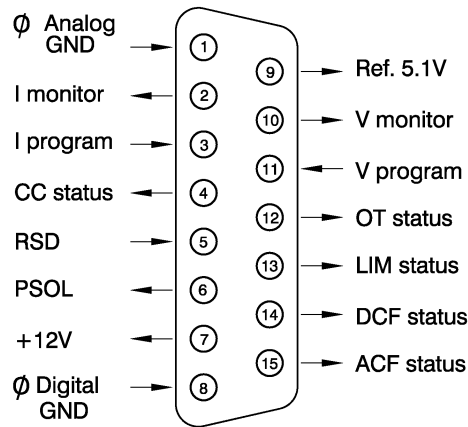

Dimensions

Rear view

Analog Programming Connector

Option Examples

Front panel connection:
 SM18-50 Option P257
 SM70-AR-24 Option P258
 SM400-AR-4 Option P259

19" Rack Adapter RA19-2 SM800

19" Rack Adapter RA19-1 SM800

Ordering Information

A complete overview of base-unit order codes, options, common option combinations and add-ons, is provided in the SM800 Order Codes document on our website. For product details, downloads, and quotation requests, please visit the SM800 series page or contact Delta Elektronika or your local authorized distributor.
